Battery & Range Analysis

The EV driving range is provided as 0 km. With a current battery level of 80%, the estimated available driving range is 0 km. Because this value is unavailable, a precise range analysis cannot be conducted, but charging is assumed to be required to complete the 268.76 km journey.

AI Recommendation

Recommended Station: Fortum Mahindra (ID: 149527)

Fortum Mahindra (ID: 149527) is recommended because it offers the most convenient detour (10.6 km) while satisfying the user's food requirement with 6 nearby restaurants. The major trade-offs are that the charger power, connector type, charging cost, and charging time are unavailable due to missing station and EV range specifications. Furthermore, live charger availability could not be verified.
